

Turning On Accessibility Mode in AgLearn+

Accessibility Mode is sometimes required for certain functions when viewing AgLearn on Internet Explorer 8. These instructions will show you how to activate it.

| Step | Activity | View |
|------|--|--|
| 1. | Click inside the Search Catalog field. |  |
| 2. | Hold down the Shift key while pressing the Tab key five times. This will reveal the Turn Accessibility On link. |  |
| 3. | Click the Turn Accessibility On link. |  |
| 4. | Observe the icon that looks like a monitor near the top of the screen. This indicates accessibility mode has been turned on. |  |
